Calificador — pipeline de calificación de un examen

python -m cli.grade <fotos> · #0 es el flujo completo; cada rectángulo de color es una llamada a otra función y '→ #n' es el número de su diagrama. Generado por scripts/pipeline_diagram.py

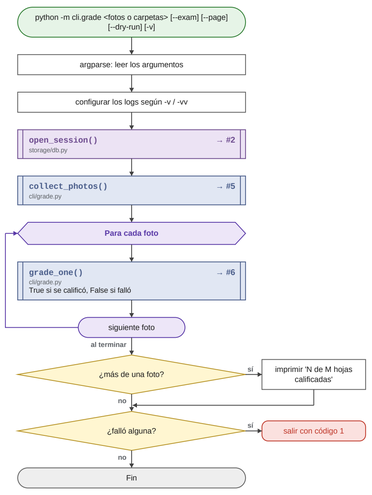

Inicio: lo que recibe · Fin: lo que devuelve · Paso · Decisión · Ciclo · Error (excepción) · Return anticipado

Archivos: `cli/grade.py` · `storage/db.py` · `storage/repository.py` · `core/preprocessing.py` · `core/pipeline.py` · `core/alignment.py` · `core/qr.py` · `core/layout.py` · `models/exam.py` · `core/detection.py` · `core/scoring.py`
